

This is a list of the COVID-19 infection increases per listed facility for the week ending on the date specified. This data includes both staff and incarcerated people, as reported by the Bureau of Prisons.

This list does not include every facility that had an increase in infections each week; rather, it includes only those institutions reporting double or triple-digit increases over a 7-day period.

This data is tracked on a daily basis and compiled by the University of Iowa Federal Criminal Defense Clinic. For more detailed data please see the spreadsheets posted to the website.

Last updated 9/16/2022

8/20/2021

- Coleman Low FCI had 12 new cases this week
- Marianna FCI had 15 new cases this week
- McCreary USP had 15 new cases this week
- San Diego MCC had 37 new cases this week
- Sheridan FCI had 10 new cases this week

8/27/2021

- Coleman Low FCI had 14 new cases this week
- McCreary USP had 59 new cases this week
- San Diego MCC had 63 new cases this week
- Three Rivers FCI had 12 new cases this week

9/3/2021

- Coleman II USP had 36 new cases this week
- McCreary USP had 10 new cases this week
- Mendota FCI had 44 new cases this week
